INDEPENDENT AUDITORS' REPORT

Board of Trustees
Maryland Transportation Authority
Baltimore, Maryland

Report on the Financial Statements

We have audited the accompanying financial statements of business-type activities of the Maryland Transportation Authority (the Authority), an enterprise fund of the State of Maryland, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of a Matter

During fiscal year ended June 30, 2015, the Authority adopted GASB Statement No. 68, Accounting and Financial Reporting for Pensions and the related GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68. As a result of the implementation of these standards, the Authority reported a restatement for the change in accounting principle (see Note 7). Our auditors' opinion was not modified with respect to the restatement.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Maryland Transportation Authority as of June 30, 2015, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and net pension liability and pension contributions schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Maryland Transportation Authority's basic financial statements. The accompanying Combined Statement of Revenue and Expense for All Toll Facilities, the Statements of Traffic Volume and Toll Income, and the Investments of Funds as outlined in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combined Statement of Revenue and Expense for All Toll Facilities, the Statements of Toll Income, and the Investments of Funds is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combined Statement of Revenue and Expense for All Toll Facilities, the Statements of Toll Income, and the Investments of Funds is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Statements of Traffic Volume have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 2, 2015, on our consideration of the Maryland Transportation Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**Maryland Transportation Authority
Management's Discussion and Analysis
June 30, 2015**

The following Management's Discussion and Analysis (MD&A) provides an overview of the Maryland Transportation Authority's (MDTA) financial performance for the fiscal year ended June 30, 2015. As you read the MD&A, 2015 refers to the fiscal year ended June 30, 2015, and 2014 refers to the fiscal year ended June 30, 2014. This narrative intends to supplement the MDTA's audited financial statements, which are comprised of the basic financial statements and the notes to the financial statements.

FINANCIAL HIGHLIGHTS

- The MDTA's net position totals \$3.6 billion, an increase of \$343.7 million, or 10.6%, in 2015 as compared to 2014. As of June 30, 2015, assets and deferred outflows exceeded liabilities and deferred inflows by \$3.6 billion.
- As a result of significant infrastructure investment, capital assets, net of accumulated depreciation, increased by \$233.2 million, or 4.2%, from 2014.

Expansion project growth related to the Intercounty Connector (ICC/MD 200) and I-95 Express Toll Lanes (I-95 ETL) on the John F. Kennedy (JFK) Memorial Highway totaled \$88.5 million in 2015.

System preservation and restoration of existing facilities totaled \$144.7 million in 2015.

- For the year ended June 30, 2015, the MDTA had total bonded debt outstanding of \$3.2 billion, which includes \$2.318 billion in revenue bonds backed by the MDTA's toll revenues, and \$858.1 million in debt backed by sources external to the MDTA. The MDTA's revenue bonds remain below the statutory cap of \$2.325 billion (mandated for fiscal years 2015 through 2020) and have strong rate covenant coverage of 3.42 versus a 1.0 requirement.
- Operating revenues increased in 2015 by \$23.1 million, or 2.9%, from 2014 due to an 8.1% increase in traffic at the MDTA's bridges, tunnels, and highways.
- On July 1, 2014, the MDTA elected to optionally redeem with cash \$54.5 million of the remaining outstanding Transportation Facilities Projects Revenue Bonds, Series 2004.
- On September 24, 2014, the MDTA sold Lease Revenue Refunding Bonds (Metrorail Parking Projects), Series 2014 Bonds to fully redeem \$29.0 million of the outstanding Lease Revenue Bonds (Metrorail Parking Projects), Series 2004 (the Series 2004 Bonds) in order to achieve debt service savings.

- Subsequent to signing an innovative Service Concession Arrangement (SCA) in 2012, the MDTA and Areas USA announced the opening of the \$26.2 million Chesapeake House travel plaza in August 2014. The new 30,000 square-foot Chesapeake House travel plaza offers classic brands, convenient access and essential services, all within an environmentally sensitive design. The Maryland House was previously redeveloped in January 2014. Both facilities will be operated by Areas USA through 2047 under a revenue-sharing agreement.
- The final section of the ICC/MD 200 and new I-95 interchange in Prince George's County opened to the public on November 9, 2014. This represents the final contract associated with the ICC and follows the initial partial opening in February 2011 and substantial completion in November 2011.
- The I-95 Express Toll Lanes opened to the public on December 6, 2014. The I-95 ETL is the second all-electronic toll facility in Maryland and will bring much needed traffic relief to one of the most congested portions of I-95 just north of Baltimore. The I-95 ETL provide eight miles, seven tolled, of generally free-flowing traffic between I-895 and just north of MD 43.

OVERVIEW OF THE FINANCIAL STATEMENTS

The MDTA is an independent agency of the State of Maryland that was created to manage the State's toll facilities as well as to finance certain new revenue-producing transportation projects. The MDTA is a non-budgeted agency that relies solely on revenues generated from its transportation facilities. Disposition of these revenues is governed by a Trust Agreement between the MDTA and its Trustee. The MDTA is accounted for as a proprietary-type enterprise fund using the accrual basis of accounting, similar to a private business entity.

Financial Statements

The financial statements included in this report are the: Statement of Net Position; Statement of Revenues, Expenses, and Changes in Net Position; and Statement of Cash Flows. These statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (GASB).

Statement of Net Position

The Statement of Net Position depicts the MDTA's financial position as of a point in time and includes all assets, liabilities, deferred inflows and outflows of the MDTA. The net position represents the residual interest in the MDTA's assets after liabilities and deferred inflows are deducted and are displayed in three components: 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses and Changes in Net Position reports the revenues and expenses of the MDTA that are used to measure the success of the MDTA's operations for a given period of time and how the MDTA has funded its operations.

Statement of Cash Flows

The Statement of Cash Flows reconciles the changes in cash and cash equivalents with the noncapital financing, capital financing, and investing activities.

Notes to the Financial Statements

The Notes to the Financial Statements provide additional information that is essential to the full understanding of the data provided in the financial statements. The Notes to the Financial Statements can be found on pages 25 to 71 of this report.

June 30, 2015**

FINANCIAL ANALYSIS

Financial Position

Table 1 is a summarized version of the Statement of Net Position for the years ended June 30, 2015 and 2014. The table reflects the MDTA's overall change in financial resources and claims on those resources. The majority of the MDTA's assets consist of cash, investments, direct financing lease receivables, and capital assets. Liabilities primarily represent accounts payable, accrued liabilities, and bonds payable.

**Table 1: Assets, Liabilities, and Net Position
(In Thousands)**

	For the Fiscal Years Ended June 30			
	2015	2014*	Variance	% Change
Current Assets	\$ 900,999	\$ 794,315	\$ 106,684	13.4%
Noncurrent Assets	695,789	670,399	25,390	3.8%
Capital Assets, net	5,761,623	5,528,413	233,210	4.2%
Total Assets	<u>\$ 7,358,411</u>	<u>\$ 6,993,127</u>	<u>\$ 365,284</u>	5.2%
Deferred Outflow of Resources	<u>\$ 32,738</u>	<u>\$ 31,577</u>	<u>\$ 1,161</u>	3.7%
Current Liabilities	\$ 421,598	\$ 414,913	\$ 6,685	1.6%
Long-Term Bonds Payable	3,117,802	3,124,356	(6,554)	-0.2%
Other Long-Term Liabilities	194,249	212,804	(18,555)	-8.7%
Total Liabilities	<u>\$ 3,733,649</u>	<u>\$ 3,752,073</u>	<u>\$ (18,424)</u>	-0.5%
Deferred Inflow of Resources	<u>\$ 73,845</u>	<u>\$ 32,635</u>	<u>\$ 41,210</u>	126.3%
Net Position				
Net Investment in Capital Assets	\$ 3,063,498	\$ 2,806,242	\$ 257,256	9.2%

Unrestricted	417,371	257,221	160,150	62.3%
Total Net Position	<u>\$ 3,583,655</u>	<u>\$ 3,239,994</u>	<u>\$ 343,661</u>	10.6%

* FY 2014 Net Position (Unrestricted) has been adjusted for net pension liability to conform to GASB No. 68
See Note 1, New Accounting Pronouncements

Current Assets

Current assets increased by \$106.7 million, or 13.4%, in 2015 as compared to 2014. The increase in 2015 occurred primarily due to an increase in the MDTA's investments of \$172.8 million, or 35.5%. This increase was offset by a decrease in current cash and cash equivalents of \$71.6 million, or 28.8%. Proceeds from a Transportation Infrastructure Finance and Innovation Act (TIFIA) loan that reimbursed previously spent funds on construction of the ICC were invested upon receipt, subsequently driving the increase in investments. The decrease in cash and cash equivalents was primarily due to spending on capital projects.

Noncurrent Assets

Noncurrent assets increased by \$25.4 million, or 3.8%, in 2015 as compared to 2014. The increase is primarily the result of an increase in noncurrent direct financing lease receivables in the amount of \$47.7 million, or 13.2%, which is largely due to an increase of debt service payments for the issuance of debt for the Maryland Aviation Administration (MAA). Restricted investments were another contributing factor to the increase, with an increase of \$17.8 million, or 8.8%. These increases were offset by a decrease in restricted cash and cash equivalents of \$39.7 million, or 44.5%, which was used to fund the MDTA's (including conduit) capital projects in 2015.

Capital Assets, net

Table 2 is a summarized version of the MDTA's capital assets, net of depreciation, for the years ended June 30, 2015 and 2014. Investment in capital assets include land and improvements, construction in progress, buildings, machinery and equipment, highways, bridges, and tunnels. Details of capital assets, additions, and depreciation are included in Note 4 to the financial statements.

**Table 2: Capital Assets, Net of Depreciation
(In Thousands)**

For the Fiscal Years Ended June 30

	<u>2015</u>	<u>2014</u>
Non-depreciated:		
Land	\$ 392,110	\$ 391,734
Construction in progress	1,351,992	1,441,483
	<u>1,744,102</u>	<u>1,833,217</u>
Depreciated:		
Infrastructure	3,874,236	3,585,690
Buildings	122,388	86,684
Machinery and Equipment and Vehicles	20,897	22,822
	<u>20,897</u>	<u>22,822</u>
Total Capital Assets, Net	<u>\$ 5,761,623</u>	<u>\$ 5,528,413</u>

Capital Assets, net of depreciation, increased by \$233.2 million, or 4.2%, in 2015 as compared to 2014. The MDTA's capital assets were principally funded by MDTA revenues. The increase in 2015 is primarily attributable to system preservation and restoration projects. System preservation expenses totaled \$144.7 million in 2015. Additionally, expenses for the I-95 ETL and ICC/MD 200 projects totaled \$64.5 million and \$24.0 million, respectively. The I-95 ETL is an expansion project designed to relieve congestion and improve interchanges on the JFK Memorial Highway (I-95) north of Baltimore. The ICC/MD 200 is an 18 mile, 6-lane congestion-managed toll highway located in the Maryland suburbs of Washington DC. Total depreciation expense in 2015 increased by 1.9% when compared to the prior fiscal year, primarily due to the addition of new infrastructure to the depreciation cycle.

Deferred Outflow of Resources

Deferred outflow of resources increased to \$32.7 million in 2015 as compared to \$31.6 million in 2014. This increase is primarily due to the actuarial change in pension expense of \$2.5 million, offset by a \$1.3 million reduction due to the amortization of the deferred amount on refunding debt.

Current Liabilities

Current liabilities increased by \$6.7 million, or 1.6%, in 2015 as compared to 2014. The increase is primarily due to an increase in the intergovernmental payable, which totaled \$13.0 million, or 18.3% in 2015. This was offset by a decrease in the current portion of bonds payable and accrued interest, which decreased by \$3.6 million and \$3.4 million, respectively. The increase in intergovernmental payable is largely due to an increase in MAA facility improvement funds, net of capital spending. The current portion of bonds payable and accrued interest decreased primarily due to the MDTA paying down the principal and interest on existing issuances.

Noncurrent Liabilities

Noncurrent liabilities decreased by \$25.1 million, or 0.8%, in 2015 as compared to 2014. The primary change is attributed to the net pension liability of \$17.7 million. Details of the net pension liability can be found in Note 7 to the financial statements. The decrease in noncurrent bonds payable of \$6.6 million was the result of payments of principal on existing debt, defeasance of the Series 2004 bonds, and amortization of bond premiums, offset by the final draw of the TIFIA loan and the issuance of the Series 2014 PFC bonds. Details of bonds payable can be found in Note 5 to the financial statements.

**Maryland Transportation Authority
Management's Discussion and Analysis
June 30, 2015**

Table 3 is a summary of outstanding bond debt.

**Table 3: Outstanding Bond Debt
(In Thousands)**

	<u>2015</u>	<u>2014</u>
Transportation Facility Revenue	\$ 2,318,289	\$ 2,268,795
GARVEE	349,440	415,775
Conduit Debt:		
BWI Airport PFC Revenue	209,225	177,285
BWI Airport Rental Car Facility	93,785	96,495
BWI Airport Parking Garage Revenue	159,860	171,180
WMATA Metrorail Parking Revenue	27,200	30,480
Calvert Street Parking Revenue	<u>18,585</u>	<u>19,300</u>
Total Conduit Debt	<u>508,655</u>	<u>494,740</u>
Unamortized Premium	<u>55,953</u>	<u>63,221</u>
Total Bond Debt, Net	<u><u>\$ 3,232,337</u></u>	<u><u>\$ 3,242,531</u></u>

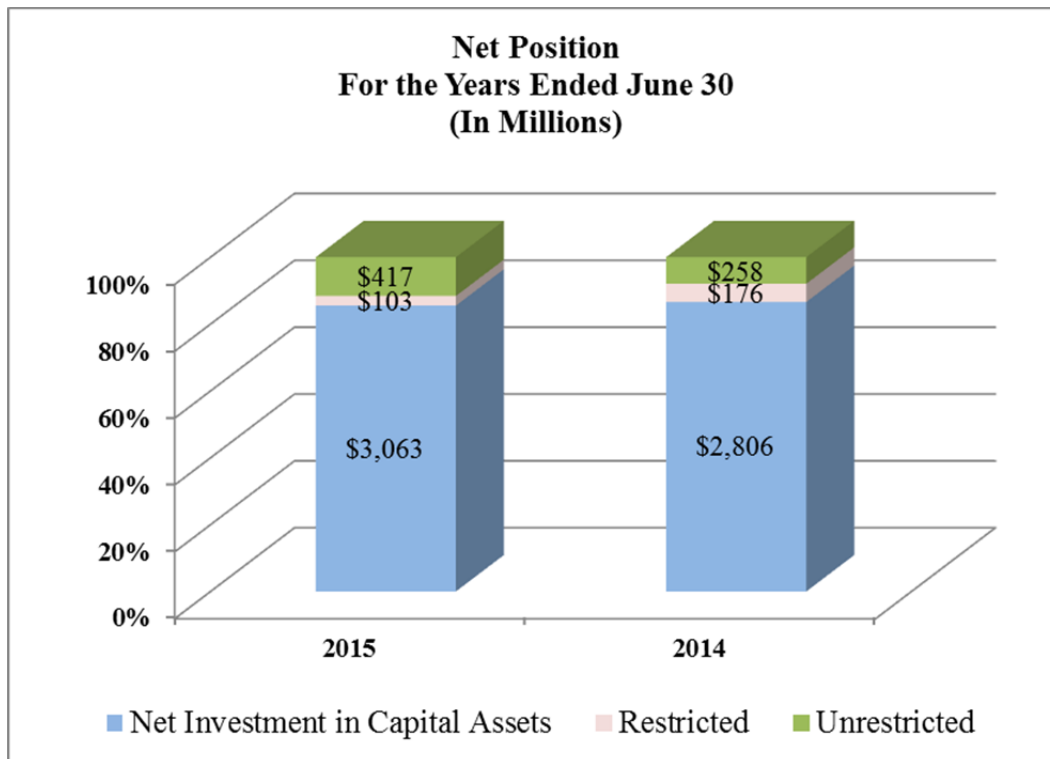

The MDTA's revenue bonds have underlying ratings of AA- by Standard & Poor's Ratings Services and Fitch Ratings and Aa3 rating by Moody's Investors Service. Pursuant to statute, the MDTA may issue revenue bonds secured by toll revenues in any amount provided the aggregate outstanding balance does not exceed \$2.325 billion as of fiscal year end. The MDTA is subject to the provisions and restrictions of the Trust Agreement with the Trustee, The Bank of New York Mellon, dated as of September 1, 2007, as amended and supplemented. The MDTA's rate covenant coverage for 2015 as defined by the Trust Agreement was 3.42 versus a 1.00 requirement.

Deferred Inflow of Resources

Deferred inflows of resources increased by \$41.2 million, which was more than double the \$32.6 million on the Statement of Net Position in 2014. The increase is primarily attributable to \$25.2 million for the acquisition of the Chesapeake House travel plaza that is applicable to a future reporting period, and an increase of \$18.9 million from the implementation of GASB No. 68 for pension investment experience.

Total Net Position

Net position increased by \$343.7 million, or 10.6%, in 2015 as compared to 2014. In 2015, the increase in net investment in capital assets and unrestricted assets of \$257.2 million and \$160.2 million, respectively, was offset by a decrease in debt service and capital expenses of \$65.8 million and \$7.9 million, respectively. The increase in net investments in capital assets resulted from the MDTA’s use of cash reserves in the restoration of existing facilities. The increase in unrestricted assets increased primarily due to the 2014 restatement of the unrestricted portion of the Net Position due to GASB 68. The decrease in debt service primarily stemmed from the defeasance of the Series 2004 bonds in 2015 in the amount of \$54.5 million. Capital expenses decreased as the majority of funds restricted for the ICC/MD 200 have been spent.

Note: FY 2014 Net Position has been restated to conform to GASB No. 68.

Results of Operations

Table 4 is a summarized version of the Statement of Revenues, Expenses, and Changes in Net Position for the years ended June 30.

**Table 4: Revenues, Expenses, and Changes in Net Position
(In Thousands)**

For the Fiscal Years Ended June 30

	2015	2014	% Change
Operating revenues			
Toll revenue	\$ 649,791	\$ 615,579	5.6%
Concession revenue	5,070	3,314	53.0%
Intergovernmental revenue	128,579	148,603	-13.5%
Toll administrative revenue	42,751	34,534	23.8%
Other revenue	1,568	2,612	-40.0%
	<u>827,759</u>	<u>804,642</u>	<u>2.9%</u>
Total operating revenues			
Operating expenses	<u>385,988</u>	<u>369,280</u>	<u>4.5%</u>
Income from operations	441,771	435,362	1.5%
Investment revenue	3,452	3,340	3.4%
Restricted interest income on investments	2,309	1,436	60.8%
Total non-operating revenue	<u>5,761</u>	<u>4,776</u>	<u>20.6%</u>
Loss on disposal	(2,303)	(8,658)	-73.4%
Interest expense	(101,568)	(91,668)	10.8%
Total non-operating expenses	<u>(103,871)</u>	<u>(100,326)</u>	<u>3.5%</u>
Total non-operating revenues (expenses)	<u>(98,110)</u>	<u>(95,550)</u>	<u>-2.7%</u>
Increase in net position	<u>\$ 343,661</u>	<u>\$ 339,812</u>	<u>1.1%</u>

Operating Revenues

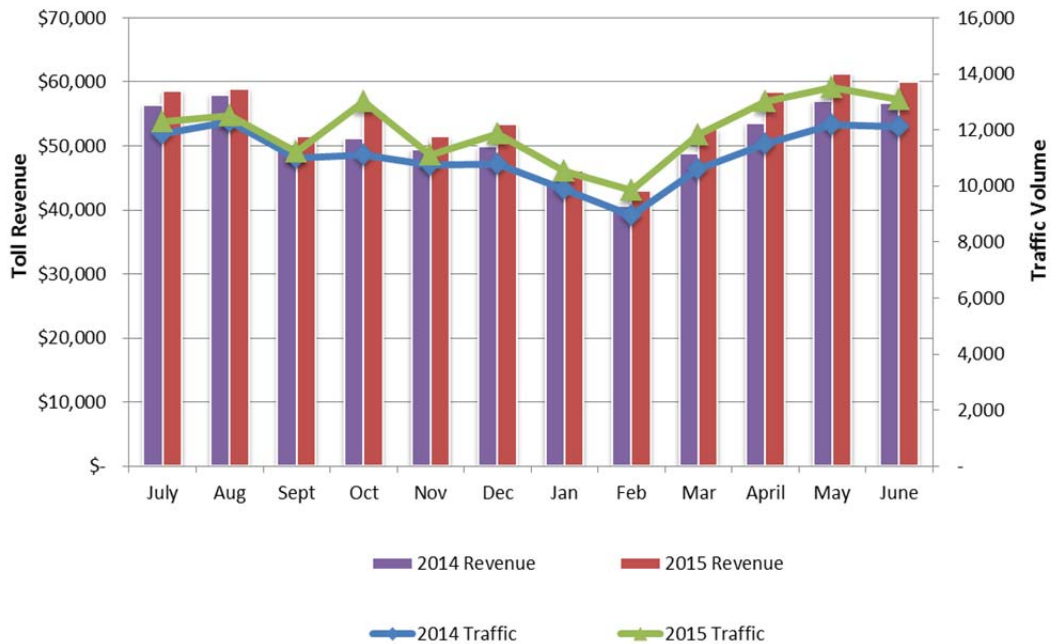

Operating revenues increased by \$23.1 million, or 2.9%, in 2015 as compared to 2014. The increase from 2014 is attributed to toll revenue, toll administrative revenue, and concessions revenue increases of \$34.2 million, \$8.2 million and \$1.8 million, respectively. This is offset by a decrease in intergovernmental revenue of \$20.0 million. Toll revenue increased due to an 8.1% increase in traffic on the facilities throughout the year. Due to legislation enacted in 2013 (Chapter 113), toll administrative revenue increased primarily as a result of the enhanced enforcement tools the MDTA is now utilizing for toll violators. Concession revenue increased primarily due to the opening of the Chesapeake House travel plaza in 2015. Intergovernmental revenue decreased primarily as a result of completion of payments from the State of Maryland for partial funding of the ICC/MD 200.

Traffic Volume and Revenue Comparison

Although a correlation between traffic volume and toll revenue exists, variations due to vehicle class and payment type may occur as is shown in the following graph. Despite an increase of 8.1% in traffic volume in 2015 as compared to 2014, toll revenue only increased by 5.6% due to lower volume in Class 5 vehicles. In 2015, traffic volume on the ICC increased 17.8% as compared to 2014, while traffic volume at legacy facilities increased by 6.3%.

**Traffic Volume and Revenue Comparison
 (In Thousands)**

Operating Expenses

Operating expenses increased by \$16.7 million, or 4.5%, which is primarily the result of an increase of \$8.3 million in payroll related expenses, a \$4.9 million increase in E-Z Pass service center costs, and an increase of \$2.1 million in depreciation. The \$8.3 million increase in payroll related expenses is the result of a 2% salary increase for all employees in 2015. The \$4.9 million increase in E-Z Pass service center costs is primarily due to opening of the I-95 ETL and ICC/MD 200. The increase in depreciation is largely associated with new infrastructure assets entering the depreciation cycle.

Non-Operating Revenues and Expenses

Non-operating revenues and expenses decreased by \$2.6 million, or 2.7%, in 2015 as compared to 2014. During 2015, interest expense increased by \$9.9 million and the loss on disposals of capital assets decreased by \$6.4 million. Investment revenue and restricted interest income on investments increased by \$0.9 million. Interest expense increased as a result of decreased recognition of interest capitalization primarily due to the ICC/MD 200 project completion. Loss on disposals decreased due to the replacement of infrastructure that was more fully depreciated. Investment revenue and restricted interest income on investments increased as a result of higher average investment balances and more favorable interest rates during 2015.

Economic Outlook

The MDTA's traffic through its toll facilities has historically demonstrated less elasticity to economic conditions relative to other tolling systems nationally. The MDTA benefits from its essential highway, bridge, and tunnel system serving the northeast corridor, as well as favorable proximity to government employment and a strong regional economy. Traffic volumes at the legacy facilities (excluding the ICC/MD 200 and I-95 ETL projects) grew in 2015, rebounding from the decline in 2014 following a toll rate increase implemented on July 1, 2013. Traffic volumes on the ICC/MD 200 and I-95 ETL increased as well due to an expected ramp-up in operations following the opening of the final contract of the ICC/MD 200 and the entire length of the I-95 ETL.

Rate changes may influence traffic levels in the short-term, but historical data suggests that any dislocations will be temporary and traffic growth may resume as a function of external economic factors such as population, employment, fuel prices, and GDP growth. The Federal Open Market Committee is forecasting continued GDP growth and declines in national unemployment for calendar 2015 and 2016. Lower fuel prices and Maryland employment that increased 2.2% over the twelve-month period ended June 2015 may help support traffic volumes. Traffic on the legacy facilities is projected to continue to grow in 2016 and resume a long-term growth trend of approximately 1% annually.

REQUESTS FOR INFORMATION

For additional information concerning the MDTA, please see the MDTA's website, www.mdt.state.md.us. Financial information can be found in the About the MDTA section of the website. The MDTA's executive offices are located at 2310 Broening Highway, Baltimore, Maryland, 21224, and the main telephone number is 410-537-1000.

NOTES TO THE FINANCIAL STATEMENTS

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Legislative Enactment

The Maryland Transportation Authority (MDTA) was established by Chapter 13 of the Laws of Maryland of 1971. The MDTA is part of the primary government of the State of Maryland and is reported as a proprietary fund and business-type activity within the State of Maryland's financial statements.

The legal mandate of the law establishes that the MDTA was created to manage the State's toll facilities, as well as to finance certain new revenue-producing transportation projects. The MDTA is responsible for supervising, financing, constructing, operating, maintaining and repairing the State's toll facilities in accordance with an Amended and Restated Trust Agreement dated as of September 1, 2007 (the Trust Agreement) and the Supplemental Trust Agreements dated as of March 1, 2008; April 29, 2008; December 1, 2008; December 1, 2009; July 1, 2010; and February 1, 2012, relating to the Maryland Transportation Authority Transportation Facilities Projects Revenue Bonds, Series 1992, 2004, 2007, 2008, 2008A, 2009A, 2009B, 2010A, 2010B and the Transportation Facilities Projects Revenue Refunding Bonds Series 2012, respectively.

The MDTA is responsible for various projects (the Transportation Facilities Projects, as defined under the Trust Agreement), the revenue from which has been pledged to the payment of the toll revenue bonds issued under the Trust Agreement. The Transportation Facilities Projects consist of the following:

- Potomac River Bridge - Harry W. Nice Memorial Bridge
- Chesapeake Bay Bridge - William Preston Lane, Jr. Memorial Bridge
- Patapsco Tunnel - Baltimore Harbor Tunnel
- Baltimore Outer Harbor Crossing - Francis Scott Key Bridge
- Northeastern Expressway - John F. Kennedy Memorial Highway, including the I-95 Express Toll Lanes (I-95 ETL)
- Fort McHenry Tunnel
- Intercounty Connector (ICC/MD 200)

In addition to the above facilities, the MDTA is permitted to construct and/or operate other projects, the revenues from and for which are also pledged to the payment of the bonds issued under the Trust Agreement unless and until, at the MDTA's option, such revenue is otherwise pledged. These additional projects (the General Account Projects, as defined under the Trust Agreement) currently include the following:

- Susquehanna River Bridge - Thomas J. Hatem Memorial Bridge
- Masonville Phase I Auto Terminal
- Intermodal Container Transfer Facility

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

In addition to the foregoing facilities, the MDTA is permitted to finance other projects (the Transportation facilities projects, as defined by Maryland statute) the revenues from and for which are pledged to the payment of bonds issued under various other trust agreements. Therefore, the MDTA may issue revenue bonds that are secured by revenues pledged from or relating to certain projects which are not secured by MDTA's toll revenues. To date, the MDTA has also issued revenue bonds for various Transportation facilities projects at the Baltimore/Washington International Thurgood Marshall Airport (BWI Marshall Airport) in Anne Arundel County, MD; for vehicle-parking facilities projects at certain Metrorail stations operated by the Washington Metropolitan Area Transit Authority (WMATA) in Prince George's County, MD; for a State parking facility in Annapolis, MD; and for the Intercounty Connector between I-270/I-370 and I-95/US 1 in Montgomery and Prince George's Counties.

The MDTA has issued Airport Parking Revenue Refunding Bonds, Series 2012A and 2012B to refund the previously outstanding Series 2002A and Series 2002B Airport Parking Revenue Bonds; BWI Consolidated Rental Car Facility Revenue Bonds, Series 2002; BWI Variable Rate Passenger Facility Charge Revenue Bonds, Series 2003A, 2003B and 2012C; BWI Passenger Facility Charge Revenue Bonds, Series 2012A and 2012B and 2014; Lease Revenue Refunding Bonds, Series 2014 to refund the previously outstanding Lease Revenue Bonds, Metrorail Parking Projects, Series 2004; Parking Lease Revenue Bonds, Calvert Street Parking Garage Project, Series 2005; and Grant and Revenue Anticipation Bonds (GARVEE) Series 2007 and Series 2008.

The State of Maryland prepares a comprehensive annual financial report (CAFR). The MDTA is an enterprise fund of the State of Maryland and is included in the basic financial statements of the CAFR of the State of Maryland. The State's CAFR can be found at <http://finances.marylandtaxes.com>.

Basis of Accounting Presentation

The MDTA is accounted for as a proprietary fund engaged in business-type activities. In accordance with Government Accounting Standards Board (GASB) Statement No. 34, "*Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*", as amended, and with accounting principles generally accepted in the United States of America, the financial statements are prepared on the accrual basis of accounting, which requires recognition of revenue when earned and expenses when incurred.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results may differ from those estimates.

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

Operating and Non-Operating Revenues and Expenses

Operating revenues for the MDTA are derived from toll revenues and related toll administrative fees, travel plaza concessions, and intergovernmental revenues. Revenue is recognized on an accrual basis as earned. Operating revenues consist of tolls collected, concessions from facilities along the highways, and all other services rendered. Prepaid electronic tolls are recorded as unearned revenue until utilized or expired. Operating expenses include collection fees, maintenance and repairs of facilities, administrative, and depreciation expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash deposited with financial institutions, and investments with original maturities of three months or less at the time of purchase.

Receivables

Receivables include intergovernmental, direct financing lease, and accounts receivable. Intergovernmental receivables represent amounts due for police services and rental income. Direct financing lease receivable represents amounts due from obligors on conduit debt issued by the MDTA. Accounts receivable represents the amounts due primarily from E-ZPass Interagency and concessionaires. The MDTA uses the allowance method to provide for doubtful accounts based on management's evaluation of the collectability of receivables and past collection history. The MDTA determines receivables to be delinquent when they become greater than 90 days past due. Receivables are written off when it is determined that amounts are uncollectible. As of June 30, 2015, management believes all receivables are collectible, and, as such, no allowance for doubtful accounts has been recorded.

Investments

Investments are carried at fair value with all income, including unrealized changes in the fair value of investments, reported as interest and other investment income in the accompanying financial statements.

The MDTA's Trust Agreement defines the types of securities authorized as appropriate investments for the MDTA and conditions for making investment transactions. Investment transactions may be conducted only through authorized financial dealers and institutions.

Inventory

Inventory consists primarily of spare parts, salt and supplies carried at cost using a weighted average cost method. The cost of inventory is expensed upon use (consumption method). The MDTA analyzes inventory for impairment on a periodic basis. For the year ended June 30, 2015, the MDTA determined no inventory was impaired, and, as such, no allowance was recorded.

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

Capital Assets

Capital assets, not being depreciated, consist of land and construction in progress, which are recorded at historical cost. Land is determined to have an inexhaustible life. Construction in progress is transferred to a depreciating asset category upon completion of the project at which time depreciation will commence. Capital assets, net of depreciation, consist of buildings, building improvements, infrastructure, and machinery, equipment and vehicles, which are recorded at historical cost less accumulated depreciation. The MDTA defines capital assets as assets with an initial individual cost of \$100 or more, and an estimated useful life in excess of 7 years.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The total interest expense incurred by the MDTA during the current fiscal year was \$117,054, of which \$15,486 was included as part of the cost of capitalized assets under construction and \$101,568 was expensed.

Land improvements, buildings, building improvements, infrastructure, machinery, vehicles and equipment are depreciated using the straight line method of depreciation over the following estimated useful lives:

Capital Asset Type	Useful Life
Land Improvements	20 Years
Buildings & Building Improvements	25-75 Years
Infrastructure	40-75 Years
Machinery, Equipment & Vehicles	10-20 Years

Restricted Assets

In accordance with the Trust Agreements, the MDTA has established and maintains certain restricted accounts. Funds have been deposited in these accounts and are restricted for the payment of debt service related to the revenue bonds, major capital replacements, improvements, betterments, enlargements or capital additions and conduit related debt.

Compensated Absences

The MDTA accrues compensated absences in accordance with GASB Statement No. 16, "Accounting for Compensated Absences". All full-time MDTA employees, except contractual employees, accrue annual leave at variable rates based on the number of years employed by the State of Maryland. The maximum annual leave an employee can earn per calendar year is 25 days. At the end of each calendar year, an employee's accrued annual leave may not exceed 75 days. All full-time MDTA employees, except contractual employees, also accrue sick pay benefits. However, the MDTA does not record a liability for accrued sick pay benefits, as neither the State of Maryland nor the MDTA has a policy to pay unused sick leave when employees terminate from State service.

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

Arbitrage Payable

Arbitrage rebate requirements under Internal Revenue Code Section 148 apply to tax-exempt bond issuances issued after August 31, 1986. The law requires the computation and payment of arbitrage profits on unspent proceeds of a bond issue if the current investment of these funds yields a higher rate of return than the original bond issue. For the year ended June 30, 2015, there is no arbitrage liability due to the Internal Revenue Service.

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenses) until then. The MDTA has two items that qualify for reporting in this category, the deferred amount on refunding debt, and deferred pension expense (GASB No. 68), which are reported in the Statement of Net Position. (See Note 5 for additional information concerning deferred amount on refunding and Note 7 for additional information concerning GASB No. 68)

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The MDTA has two items that qualify for reporting in this category, the deferred service concession arrangement and pension investment experience (GASB No. 68) which is reported in the Statement of Net Position. (See Note 4 for additional information concerning service concession arrangements and Note 7 for additional information concerning GASB No. 68)

Debt Issuance Costs, Bond Discounts/Premiums

Debt issuance costs are expensed in the year the cost was incurred. Bond discounts/premiums and deferred amounts on refunding debt are amortized over the contractual term of the bonds using the effective interest method.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Pension Plans (Plans) and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

Net Position

Net position is divided into three categories. Net investment in capital assets includes capital assets less accumulated depreciation and outstanding principal of the related debt. Restricted net position reflects restrictions on assets imposed by parties outside the MDTA. Net position restricted for capital expenses includes ICC restricted funds. Unrestricted net position are total net assets of the MDTA less net assets invested in capital assets, net of related debt, and restricted net assets.

New Accounting Pronouncements

The MDTA has implemented the following GASB issued statements:

GASB issued Statement No. 68, *“Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27”*. This Statement replaces the requirement of GASB Statement No. 27, *“Accounting for Pensions by State and Local Governments Employers”*, and GASB Statement No. 50, *“Pension Disclosure”*. GASB Statement No. 68 requires governments providing defined benefit pensions to recognize their long term obligations for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. The Statement also enhances accountability and transparency through revised and new note disclosure and required supplementary information. (See Note 7 for additional information concerning GASB No. 68)

GASB issued Statement No. 69, *“Government Combinations and Disposals of Government Operations”*. This Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. This had no impact on MDTA.

GASB issued Statement No. 71, *“Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment to GASB No. 68”*. The objective of this statement is to address an issue regarding application of the transition provisions of GASB Statement No. 68, *“Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27”*. The issue relates to amounts associated with contributions, if any made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government’s beginning net pension liability. (See Note 7 for additional information)

Upcoming Accounting Pronouncements

In June 2015, GASB issued Statement No. 72, *“Fair Value Measurement and Application”*. GASB Statement No. 72 addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. This statement will become effective for the fiscal year beginning after June 15, 2015.

In June 2015, GASB issued Statement No. 73, “*Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statement 67 and 68*”. GASB Statement No.73 generally aligns the reporting requirements for pension and pension plans not covered in GASB Statement No. 67 and 68 with the reporting requirements in Statement No. 68.

GASB Statement No. 73 will become effective for fiscal years beginning after June 15, 2015, with the exception of the “provision that addresses employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement No. 68, which are effective for fiscal years beginning after June 15, 2016.”

In June 2015, GASB issued Statement No. 74, “*Financial Reporting for Postemployment Benefit Plans*”. GASB Statement No. 74 addresses reporting by other postemployment benefits (OPEB) plans that administer benefits on behalf of governments. This statement will become effective for the fiscal year beginning after June 15, 2016.

In June 2015, GASB issued Statement No. 75, “*Accounting and Financial Reporting for Post-Employment Benefits Plans Other Than Pension Plans*”. GASB Statement No. 75 provides guidance on reporting by governments that provide OPEB to their employees and for governments that Finance OPEB for employees of other governments. This statement will become effective for the fiscal year beginning after June 15, 2017.

In June 2015, GASB issued Statement No. 76, “*The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*”. GASB Statement No. 76 eliminates two of the four categories of authoritative GAAP that exists under the existing hierarchy prescribed by Statement No. 55. The two categories that will remain under the new standard are (1) GASB Statements and (2) GASB technical bulletins and implementation guides in addition to AICPA guidance that the GASB clears. This statement will become effective for the fiscal year beginning after June 15, 2015.

In August 2015, GASB issued Statement No. 77, “*Tax Abatement Disclosures*”. GASB Statement No. 77 requires disclosure of tax abatement information about (1) a reporting government’s own tax abatement agreements and (2) those that are entered into by other governments and that reduce the reporting government’s tax revenues. This Statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements:

- Brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, revisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients.

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

- The gross dollar amount of taxes abated during the period.
- Commitments made by a government, other than to abate taxes, as part of a tax abatement agreement.

This statement will become effective for fiscal years beginning after December 30, 2015 and is not expected to have an impact on the MDTA.

The MDTA has not completed the process of evaluating the impact that will result from adopting GASB Statements No. 72, No. 73, No. 74, No. 75, and No. 76 and therefore is unable to disclose the impact of adopting these statements will have on the MDTA's financial position.

Subsequent Events

Management evaluated subsequent events through October 1, 2015, the date the accompanying financial statements were available to be issued. Events or transactions occurring after June 30, 2015, but prior to October 1, 2015, that provide additional evidence about conditions that existed, have been recognized in the accompanying financial statements for the year ended June 30, 2015. Events or transactions that provided evidence or conditions that did not exist at June 30, 2015, but arose before the accompanying financial statements were available to be issued have not been recognized in the accompanying financial statements for the year ended June 30, 2015.

Toll Reduction

On July 1, 2015, the MDTA reduced tolls and fees for a targeted \$53,400 reduction in annual toll revenues. These reductions include changes to the toll rates at the William Preston Lane, Jr. Memorial Bridge, elimination of the monthly maintenance fee for certain E-ZPass account holders, an increase in the discount offered to Maryland E-ZPass customers, and other minor changes impacting multi-axle vehicles.

Optional Redemption of Lease Revenue Bonds, Series 2005

On August 5, 2015, the MDTA issued an \$18,011 Parking Lease Revenue Refunding Bond Calvert Street Parking Garage Project, Series 2015 to a financial institution by a direct bank loan to currently refund and redeem \$17,845 of the outstanding Parking Lease Revenue Bonds Calvert Street Parking Garage Project, Series 2005 (the Series 2005 Bonds) in order to achieve debt service savings. The Series 2005 Bonds were fully redeemed on August 17, 2015.

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

NOTE 2 – DEPOSITS AND INVESTMENTS

Cash and Cash Equivalents

As of June 30, 2015, carrying amounts and bank balances of cash on deposit with financial institutions were \$57,331 and \$52,392, respectively. Cash on hand totaled \$501.

Custodial credit risk – deposits. Custodial credit risk is the risk that, in the event of a bank failure, the MDTA's deposits may not be returned. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are (a) uncollateralized, (b) collateralized with securities held by the pledging financial institution, or (c) collateralized with securities held by the pledging financial institution's trust department or agent but not in the government's name. The MDTA's Trust Agreement requires financial institutions to provide collateral with a market value that exceeds the amount by which a deposit exceeds deposit insurance.

Federal depository insurance covers the MDTA's deposits with a financial institution up to specified limits, and the remaining balance is collateralized with securities that are held by the State of Maryland's agent in the State's name.

As of June 30, 2015, the carrying amount of cash invested in money market mutual funds was \$168,888.

Custodial credit risk – investments. Custodial credit risk is the risk that, in the event of the failure of the counterparty, the MDTA will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, not registered in the name of the government, or held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the government's name. The MDTA's Trust Agreement requires all investments to be registered in the MDTA's name.

Credit risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The MDTA's Trust Agreement allows the MDTA to invest in money market mutual funds rated AAAM or Aaa-mf. As of June 30, 2015, the money market mutual funds held by the MDTA were rated AAAM.

Investments

For the year ended June 30, 2015, the MDTA's investments and quality ratings consisted of the following:

Investment Type	Fair Value	Investment Maturities (in Years)				Credit Ratings	
		Less Than 1	1-5	6-10	More Than 10	Ratings	NRSRO
U.S. Treasury	-					AA+	S&P
U.S. Agencies	\$ 759,653	\$ 29,009	\$730,644	\$ -	\$ -	AA+	S&P
SBA Pool Securities	1,607	-	1,607	-	-	<i>Not Rated</i> ¹	
Commercial Paper	19,993	19,993	-	-	-	Tier-1	Multiple ²
Municipal Bonds	98,958	9,711	71,087	18,160	-	AAA	Multiple ³
	<u>\$ 880,211</u>	<u>\$ 58,713</u>	<u>\$803,338</u>	<u>\$ 18,160</u>	<u>\$ -</u>		

- (1) Small Business Administration Pool Securities are not rated, but are federally guaranteed.
(2) All commercial paper holdings have Tier-1 credit ratings from at least two NRSROs.
(3) All municipal bond holdings have triple-A credit ratings from at least two NRSROs.

Interest rate risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. This risk is higher in debt securities with longer maturities. The MDTA's Investment Policy limits investment maturities by fund in order to minimize interest rate risk and match maturities with expected funding needs. As a means of limiting its exposure to market value fluctuations, the MDTA has limited investments in the Operating and Bond Funds to one year. The Operating Reserve Fund, Maintenance and Operations Reserve Fund, Capital Fund, and General Fund are limited to five years. The Debt Service Reserve Fund is limited to 15 years.

Credit risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The MDTA's policy allows for investment in obligations of the U.S. Treasury including bills, notes, and bonds; obligations of U.S. agencies; repurchase agreements secured by U.S. Treasury Obligations or Federal Agency Obligations; bankers' acceptances issued by a domestic bank or a federally chartered domestic office of a foreign bank with the short-term paper rated no lower than P-1 by Moody's Investor Services and A-1 by Standard & Poor's; and municipal securities in the highest rating category by at least two Nationally Recognized Statistical Ratings Organizations (NRSRO).

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The MDTA does not place a limit on the amount by issuer of U.S. Government Agency investments. The MDTA's Investment Policy limits both commercial paper and municipal bond credit exposure to 20% of investments per sector, with single issuer exposures limited to 5%. Small Business Administration (SBA) Pool securities are limited to 5% of investments and 0.5% per issue. The issuing commercial paper corporation must have short- and long-term credit ratings from any two NRSROs of not less than

Maryland Transportation Authority
Notes to the Financial Statements

(In Thousands)

first-tier and single-A, respectively, while municipal issues must have triple-A ratings. More than 5% of the MDTA's investments are in securities issued by the Federal Home Loan Bank, Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, and Federal Farm Credit Bank representing 24.7%, 19.2%, 17.0%, and 7.3% of total investments, respectively.

NOTE 3 – RESTRICTED CASH AND CASH EQUIVALENTS AND RESTRICTED INVESTMENTS

Restricted assets are to be used to construct projects to be leased under direct financing lease agreements or to retire debt incurred to finance the assets leased.

The MDTA's restricted cash and cash equivalents and restricted investments as of June 30, 2015 are as follows:

Restricted Cash and Cash Equivalents and Restricted Investments

	Current	Non-Current	Total
Restricted Cash and Cash Equivalents			
Capital projects	\$ -	\$ 16	\$ 16

Pollution Remediation Obligations

The MDTA has recognized a pollution remediation obligation per GASB Statement No. 49, “*Accounting and Financial Reporting for Pollution Remediation Obligations*”, on the Statement of Net Position. A pollution remediation obligation is an obligation to address the current or potential detrimental effects of existing pollution by participating in pollution remediation activities, including pre-cleanup activities, cleanup activities, government oversight and enforcement and post-remediation monitoring. Obligating events that initiate the recognition of a pollution remediation liability include any of the following:

- An imminent threat to public health due to pollution;
- The government is in violation of a pollution prevention-related permit or license;
- The government is named by a regulator as a responsible or potentially responsible party to participate in remediation;
- The government is named or there is evidence to indicate that it will be named in a lawsuit that compels participation in remediation activities; or
- The government voluntarily commences or legally obligates itself to commence remediation efforts.

The pollution remediation obligation is an estimate and subject to change resulting from price increases or reductions, technology advances or from changes in applicable laws or regulations. The liability is recognized as it becomes estimable. In some cases, this may be at inception. In other cases, components of a liability are recognized as they become reasonably estimable.

The measurement of the liability is based on the current value of outlays to be incurred using the expected cash flow technique. This technique measures the sum of probability-weighted amounts in a range of possible potential outcomes.

The MDTA’s pollution remediation liability for the year ended June 30, 2015, is estimated to be \$345 and is located in Accounts Payable & Accrued Liabilities on the Statement of Net Position.

Service Concession Arrangements

The MDTA and Areas USA entered into a Service Concession Arrangement (SCA) in 2012 to redevelop and operate the two travel plazas along the John F. Kennedy Memorial Highway (I-95). The structure of the agreement between the MDTA and Areas USA is a long term lease and concession. The MDTA retains ownership of the property and assets. All property and improvements, with the exception of the fueling systems, are returned to the MDTA at the end of the 35-year capital lease. The MDTA will derive several financial benefits from this agreement including: reduced future operating and capital expenses; debt capacity will be reserved for core business activities; and revenue is guaranteed over the life of the agreement. Areas USA invested \$55,890 which required no public subsidy or debt, to redesign and rebuild both the 48-year old Maryland House and the 36-year old Chesapeake House travel plazas. Areas USA will operate and maintain the travel plazas through the year 2047. The Maryland House travel plaza opened January 2014 and the Chesapeake House Travel Plaza opened August 2014.

Revenue Bonds

The Series 1992, 2007, 2008, 2008A, 2009A, 2009B, 2010A, 2010B Revenue Bonds and the Series 2012 Revenue Refunding bonds issued in accordance with the provisions of the Trust Agreement, and the interest thereon, do not constitute a debt or a pledge of the faith and credit of the State of Maryland or the Maryland Department of Transportation (MDOT), but are payable solely from the revenue of the Transportation Facilities Projects of the MDTA. These bonds carry certain financial covenants with which the MDTA must comply.

Revenue Bonds outstanding for the year ended June 30, 2015, consisted of the following:

Series 1992 Revenue Bonds

Capital appreciation bonds maturing in the final annual installment of original principal of \$721 on July 1, 2015, with approximate yield to maturity of 6.35%	\$ 721
Accumulated accreted interest	2,279
<i>Total</i>	<u>3,000</u>

Series 2007 Revenue Bonds

Principal payments ranging from \$1,175 to \$12,685 from July 1, 2015 to July 1, 2031, with coupons ranging from 4.00% to 5.00%, payable semiannually	147,835
Term bonds maturing July 1, 2037 and July 1, 2041 with coupons of 4.50%	148,945
<i>Total</i>	<u>296,780</u>

Series 2008 Revenue Bonds

Principal payments ranging from \$9,995 to \$31,070 from July 1, 2015 to July 1, 2038, with coupons ranging from 4.75% to 5.125%, payable semiannually	442,220
Term bond maturing July 1, 2041 with a coupon of 5.00%	103,340
<i>Total</i>	<u>545,560</u>

Grant and Revenue Anticipation Bonds, Series 2007 and Series 2008

During the year ended June 30, 2007, the MDTA issued \$325,000 of Grant and Revenue Anticipation (GARVEE) Bonds Series 2007 and during the year ended June 30, 2009, the MDTA issued \$425,000 of GARVEE Bonds Series 2008 to finance the ICC/MD 200. The ICC/MD 200 is an 18-mile toll highway located in Montgomery and Prince George's Counties. The true interest cost for each series was 4.00% and 4.31%, respectively. The Series 2007 bonds mature in annual installments of original principal ranging from \$24,345 to \$34,390 from March 1, 2008 to March 1, 2019, with yields ranging from 3.63% to 5.00%. The Series 2008 bonds mature in annual installments of original principal ranging from \$30,295 to \$48,865 from March 1, 2010 to March 1, 2020, with yields ranging from 3.00% to 5.25%.

The GARVEE Bonds are limited obligations of the MDTA, payable solely from certain federal transportation aid available to the State of Maryland and other monies included in the trust estate created by the 2007 Trust Agreement, as amended and supplemented by a First Supplemental Trust Agreement in 2008, including certain state tax revenues that are pledged. The GARVEE Bonds are not general obligations of the MDTA or legal obligations of the Maryland State Highway Administration, MDOT, or the State of Maryland.

Passenger Facility Charge Revenue Bonds (BWI Airport Facilities Projects) Series 2003A, 2003B, 2012A, 2012B, 2012C and 2014

During the year ended June 30, 2004, the MDTA issued \$69,700 of BWI Airport Facilities Projects, Series 2003A and 2003B Bonds to finance a portion of the costs of certain projects (the Airport Facility Projects) located at Baltimore/Washington International Thurgood Marshall Airport (BWI Marshall Airport). On September 11, 2006, the Maryland Aviation Administration (MAA) elected to redeem the Series 2003B Bonds in the amount of \$5,600. On July 1, 2013, the Series 2003A Bonds fully matured.

The MDTA issued 3 new series of Qualified Airport Bonds – AMT secured by Passenger Facility Charge (PFC) revenue in 2012, and a new series of Qualified Airport Bonds – AMT secured by PFC revenue in 2014, which are all secured by the Master 2003 Trust Agreement, as supplemented by the 2012 and 2014 Supplemental Trust Agreements. The BWI Airport facilities are leased to the MAA through a direct financing lease (see Note 10). The BWI Qualified Airport Bonds – AMT are payable solely from PFCs received by the MAA and deposited with the Trustee (M&T Bank). The PFC rate for 2015 was \$4.50 (not in thousands) and PFC collections for the year ended June 30, 2015, amounted to \$44,745. The debt service reserve fund for the year ended June 30, 2015 amounted to \$17,170, which amount secures the Qualified Airport Bonds – AMT Series 2012A, 2012B, and 2012C PFC Revenue Bonds and the Qualified Airport Bonds – AMT Series 2014 PFC Revenue Bonds, as hereafter described.

The Series 2012 PFC Revenue Bonds and Series 2014 PFC Revenue Bonds issued in accordance with the provisions of the Master 2003 Trust Agreement, as supplemented by the 2012 and 2014 Supplemental Trust Agreements, and the interest thereon, do not constitute a debt or pledge of the faith and credit of the State of Maryland, MDOT or the MAA, but are payable solely from the PFCs, which the MDTA receives from MAA in the form of direct financing lease payments. These bonds carry certain financial covenants with which the MDTA must comply.

The total amount of the PFC Bonds outstanding at June 30, 2015 was as follows:

Series 2012A	\$	45,405
Series 2012B		81,040
Series 2012C		43,400
Series 2014		39,380
Total	\$	<u>209,225</u>

Variable Rate Passenger Facility Charge Revenue Bonds BWI Thurgood Marshall Airport, Series 2012C

During the year ended June 30, 2013, the MDTA issued \$43,400 of Variable Rate BWI Thurgood Marshall Airport (Qualified Airport Bonds – AMT) 2012C Bonds to finance a portion of the costs of certain projects (Airport Facilities Projects) located at BWI Marshall Airport. These bonds are secured equally and ratably by PFC collections on a parity basis with all other outstanding PFC Revenue Bonds. These bonds fully mature on June 1, 2032 via sinking fund payments due on a term bond in the amount of \$43,400. The interest rates on the bonds are variable and the weekly reset rate was 0.07% as of June 30, 2015. The facilities are leased to the MAA through a direct financing lease (see Note 10).

BWI Airport Consolidated Rental Car Facility Bonds, Series 2002

During the year ended June 30, 2002, the MDTA issued \$117,345 of BWI Airport Consolidated Rental Car Facility Taxable Limited Obligation Revenue Bonds, Series 2002 (the Series 2002 Rental Car Facility Bonds), to finance the costs of a rental car facility located in the vicinity of BWI Thurgood Marshall Airport. The interest rates on the bonds ranged from 2.74% to 6.65%. These bonds mature in annual installments of original principal ranging from \$600 to \$8,505 from July 1, 2003 to July 1, 2032. The facility is leased to the MAA through a direct financing lease (see Note 10).

The Series 2002 Rental Car Facility Bonds are payable as to principal and interest solely from Customer Facility Charges (CFC) and contingent rent, if applicable, from the MAA. The CFC rate in 2015 was \$3.75 (not in thousands). CFC collections were \$12,733 for the fiscal year ended June 30, 2015. The Series 2002 Bonds, issued in accordance with the provisions of the 2002 Trust Agreement, and the interest thereon, do not constitute a debt or pledge of the faith and credit of the State of Maryland, MDOT or the MAA, but are payable solely from the CFCs and contingent rent, if applicable, which the MDTA will receive in the form of direct financing lease payments. These bonds carry certain financial covenants with which the MDTA must comply.

BWI Airport Parking Revenue Refunding Bonds, Series 2012A & 2012B

During the year ended June 30, 2012, the MDTA issued \$190,560 of BWI Airport Parking Revenue Refunding Bonds, Series 2012A – Governmental Purpose and Series 2012B – Qualified Airport – AMT (the Series 2012A and 2012B Bonds), to refinance the outstanding BWI Airport Parking Revenue Bonds, Series 2002A – Governmental Purpose and Series 2002B – Qualified Airport – AMT (the Series 2002A and 2002 B Bonds). The interest rates on the Series 2012A and 2012B Bonds range from 4.00% to 5.00%. The 2012A and 2012B Bonds mature in annual installments of original principal ranging from \$8,535 to \$16,455 from March 1, 2013 to March 1, 2027. The parking garage is leased to the MAA through a direct financing lease (see Note 10).

The Series 2012A and 2012B Bonds are payable as to principal and interest solely from the parking fees collected at BWI Marshall Airport. The Series 2012A and 2012B Bonds issued in accordance with the provisions of the 2002 Trust Agreement, as supplemented by the 2012 Supplemental Trust Agreement, and the interest thereon, do not constitute a debt or pledge of the faith and credit of the State of Maryland, MDOT or the MAA, but are payable solely from the parking fees, which the MDTA will receive in the form of direct financing lease payments. These bonds carry certain financial covenants with which the MDTA must comply.

Lease Revenue Refunding Bonds Metrorail Parking Projects, Series 2014

During the year ended June 30, 2015, the MDTA issued \$27,200 of Lease Revenue Refunding Bonds, Series 2014 (the Series 2014 Bonds), to refinance the outstanding MDTA Lease Revenue Bonds Metrorail Parking Projects, Series 2004 which financed three parking garages for the Washington Metropolitan Area Transit Authority (WMATA) at Metrorail facilities in New Carrollton, Largo and College Park, Maryland. The interest rates on the Series 2014 Bonds ranged from 2.00% to 5.00%. These bonds mature in annual installments of original principal ranging from \$1,535 to \$2,395 from July 1, 2015 to July 1, 2028. The facilities are leased to WMATA through a direct financing lease (see Note 10).

The Series 2014 Bonds are payable as to principal and interest solely from pledged revenues payable to the MDTA by WMATA under the Facility Lease Agreement and by Prince George's County, Maryland under the Project Agreement and the Deficiency Agreement (as defined in the 2004 Trust Agreement, as supplemented by the 2014 Supplemental Trust Agreement). The parking surcharge rate for 2015 was \$1.25 (not in thousands) for all but three (3) garages in Prince George's County. Parking surcharge revenues for the year ended June 30, 2015 amounted to \$5,143. The debt service reserve fund as of June 30, 2015 was \$2,489 and the requirement is \$2,472, which is the maximum annual debt service in the bond year ended July 1, 2018. The Series 2014 Bonds issued in accordance with the provisions of the 2004 Trust Agreement, as supplemented by the 2014 Supplemental Trust Agreement, and the interest thereon, do not constitute a debt or pledge of the faith and credit of the State of Maryland, the MDOT, the MDTA, WMATA or Prince George's County, but are payable solely from pledged revenue which the MDTA receives from WMATA in the form of direct financing lease payments. These bonds carry certain financial covenants with which the MDTA must comply.

Lease Revenue Bonds Calvert Street Parking Garage Project, Series 2005

During the year ended June 30, 2006, the MDTA issued \$23,760 of Parking Lease Revenue Bonds Calvert Street Parking Garage Project, Series 2005 (the Series 2005 Bonds) to finance the cost of a parking garage for State of Maryland employees in Annapolis, Maryland. The facility is leased to the Maryland Department of General Services (DGS) through a direct financing lease (see Note 10). The interest rates on the bonds ranged from 3.25% to 4.375%. These bonds mature in annual installments of original principal ranging from \$585 to \$1,415 from July 1, 2007 to July 1, 2032. Principal and interest on the Calvert Street Parking Garage Bonds are paid under a Facility Lease with DGS, and such other revenues attributable to the leasing of the garage and other funds held under a Trust Agreement dated as of June 1, 2005. DGS's obligation to make rental payments is subject to appropriation by the General Assembly. The Series 2005 Bonds do not constitute a debt or pledge of the full faith and credit of the State of Maryland, DGS, or the MDTA.

Deferred Amount on Refunding

On February 28, 2012 the MDTA partially defeased Series 2004 Facilities Project Revenue Bonds by depositing the proceeds with the Bank of New York Mellon. The proceeds were invested in State & Local Governments Series (SLGS) to pay principal and interest at maturity. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the MDTA's financial statements. On February 28, 2012, \$70,495 of bonds outstanding was considered defeased.

On April 25, 2012, the MDTA defeased the BWI Parking Revenue Bonds, Series 2002A – Governmental Purpose and the Series 2002B – Qualified Airport – AMT (the Series 2002A and B Bonds) by depositing the proceeds with the Bank of New York Mellon. The proceeds were used to fully redeem \$201,175 on April 25, 2012 and are considered defeased.

On the Statement of Net Position, the deferred amount on refunding is presented under Deferred Outflow of Resources.

NOTE 6 – COMMITMENTS AND CONTINGENCIES

Leases

In January 2015, the MDTA entered into a three year extension of the present lease for office space for the MDTA's Legal Department, E-ZPass Operations and the MDTA Police. Rent expense for the year ended June 30, 2015 totaled \$346.

The following is a schedule showing future minimum lease payments:

<u>Year Ended June 30,</u>	<u>Lease Payments</u>
2016	\$ 346
2017	346
2018	173

Contracts

For the year ended June 30, 2015, the MDTA was contractually liable for \$761,717 of uncompleted construction and improvement contracts relating to its various projects. Exclusive of that amount, the MDTA currently contemplates the expense, through 2021, of \$1,849,811 for capital additions, improvements and major rehabilitation.

NOTE 7 – RETIREMENT BENEFITS

The MDTA and its employees contribute to the Maryland State Retirement and Pension System (System). The System is a cost-sharing multiple-employer public employee retirement system established by the State to provide retirement, death and disability benefits for State employees and employees of participating entities within the State. The MDTA accounts for the Plan as a cost-sharing multiple-employer public employee retirement system. A separate valuation is not performed for the MDTA. The MDTA's only obligation to the System is its required annual contribution. The System is administered by a Board of Trustees in accordance with the State Personnel and Pensions Article of the Annotated Code of Maryland, Section 21-103. The System prepares a separate Comprehensive Annual Financial Report, which can be obtained from the Maryland State Retirement Agency, 120 East Baltimore Street, Baltimore, Maryland 21202.

The System includes several plans based on date of hire and job function. MDTA employees are members of the Employees' and Teachers' Retirement System, Employees' and Teachers' Pension System, or Law Enforcement Officers' Pension System.

The Employees' and Teachers' Retirement System (the Retirement Plan) includes those employees hired prior to January 1, 1980 who have not elected to transfer to the Employees'

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

and Teachers' Pension System (the Pension Plan) and are not a member of the Law Enforcement Officers' Pension System (the Officers' Plan). Conversely, members of the Pension Plan include those employees hired after January 1, 1980 and prior employees who elected to transfer from the Retirement Plan and are not a member of the Officers' Plan. Members of the Officers' Plan include all MDTA law enforcement officers.

Members of the Retirement Plan become vested after 5 years. Members are generally eligible for full retirement benefits upon the earlier of attaining age 60 or accumulating 30 years of eligible service regardless of age. The annual retirement allowance equals 1/55 (1.8%) of the member's highest three-year average final salary (AFS) multiplied by the number of years of accumulated creditable service. A member may retire with reduced benefits after completing 25 years of eligible service. Benefits are reduced by 0.5% per month for each month the payments begin prior to age 60 or 30 years of eligible service, whichever is less. The maximum reduction for a member is 30%.

The Pension Plan includes several components based on a member's date of hire. This is the result of legislative changes to the Pension Plan enacted in 1998, 2006 and 2011. Provisions for these components are largely the same; however, important distinctions exist in the areas of member contributions, retirement eligibility and benefit calculations. Generally, the greatest distinctions for members of the plan exist for those hired before July 1, 2011, and those hired on or after that date.

The following applies to members of the Pension Plan hired before July 1, 2011. Vesting occurs once members have accrued at least 5 years of eligible service. Members of the Pension Plan are generally eligible for full retirement benefits upon attaining age 62, with specified years of eligibility service, or accumulating 30 years of eligibility service regardless of age. Generally, the annual pension allowance for a member equals 1.2% of the member's three-year AFS, multiplied by the number of years of creditable service accumulated prior to July 1, 1998, plus 1.8% of the members' AFS, multiplied by the number of years of creditable service accumulated subsequent to June 30, 1998. A member may retire with reduced benefits upon attaining age 55 with at least 15 years of eligible service. Benefits are reduced by 0.5% per month for each month remaining until the retiree reaches the normal retirement service age. The normal retirement service age is 62 with a maximum reduction of 42%.

The following applies to members of the Pension Plan hired on or after July 1, 2011. Vesting occurs once members have accrued at least 10 years of eligible service. To receive full retirement benefits, eligibility is determined by the Rule of 90, which requires that the sum of the member's age and years of eligibility service is at least 90. The annual pension allowance for a member equals 1.5% of the member's five-year AFS multiplied by the number of years of creditable service. A member may retire with reduced benefits upon attaining age 60 with at least 15 years of eligible service. Benefits are reduced by 0.5% per month for each month remaining until the retiree reaches the normal retirement service age. The normal retirement service age is 65, with a maximum reduction of 30%.

For members of the Officers' Plan, hired on or before June 30, 2011, vesting occurs once members have accrued at least 5 years of eligible service. For members hired on or after July 1, 2011, vesting occurs once a member has accumulated 10 years of eligible service. Members are eligible for full retirement benefits upon the earlier of attaining age 50 or accumulating 25

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

years of eligible service regardless of age. Generally, the annual pension allowance for a member equals 2.0% of the member's AFS, multiplied by the number of years of creditable service up to 30 years plus 1.0% of the member's AFS for creditable service in excess of 30 years. The Officers' Plan does not provide for early retirement.

Funding Policy

Each of the above plans are funded by contributions from its members and contributions from the State and participating governmental agencies. The MDTA's required contributions are estimated by annual actuarial valuations using the entry age normal cost method with projection and other actuarial assumptions adopted by the Board of Trustees. Members of the Retirement System and the Law Enforcement Officers' Pension System are required to contribute 5% to 7% earnable compensation.

The MDTA's contributions, which equal 100% of the annual required contributions, for the three years ended June 30, 2015, 2014, and 2013 are as follows:

	2015	2014	2013
MDTA contribution	\$ 22,582	\$ 22,619	\$ 20,687
Percentage of payroll	25.2%	27.6%	25.7%

GASB No. 68 - Pension Disclosures

In June 2012, GASB issued Statement No. 68, "Accounting and Financial Reporting for Pensions-An Amendment of GASB Statement No. 27". GASB Statement No. 68 requires the MDTA to recognize the long-term obligations for pension benefits as a liability for the first time on the Statement of Net Position and to more comprehensively and comparatively measure the annual cost of pension benefits.

The components of the State of Maryland's net pension liability as reported by the Maryland State Retirement and Pension System at the measurement date:

State of Maryland's Net Pension Liability
June 30, 2014

Total Net Pension Liability	\$ 17,746,731
MDTA's Net Pension Liability	172,254
Ratio-Fiduciary Net Position/TPL	<u>1.0%</u>

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

At June 30, 2015, the MDTA reported a liability of \$172,254 for its proportionate share of the State of Maryland's net pension liability. The net pension liability was measured as of June 30, 2014 (the Maryland State Retirement and Pension System's measurement date), and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The MDTA's proportion of the State of Maryland's net pension liability was based on a projection of the MDTA's long term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

The MDTA reported deferred outflows of resources and deferred inflow of resources related to pensions from the following sources:

	<u>Deferred Outflow of Resources</u>	<u>Deferred Inflow of Resources</u>
Difference between expected and actual experience change of assumptions	\$ 2,492	-
Net difference between projected and actual earnings on pension plan investments	-	18,854
MDTA's contributions subsequent to the measurement date	<u>21,452</u>	<u>-</u>
TOTAL	<u><u>\$ 23,944</u></u>	<u><u>\$ 18,854</u></u>

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Net difference between projected and actual earnings on pension plan investments

Year Ended June 30:

2016	\$ 3,771
2017	3,771
2018	3,771
2019	3,771
2020	3,770

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

Difference between expected and actual experience change of assumptions

Year Ended June 30:

2016	\$	100
2017		100
2018		100
2019		100
2020		100
2021-2040		1,992

MDTA contributions of \$21,452 reported as deferred outflows of resources related to pensions from operations resulted from contributions subsequent to the measurement date. This amount will be recognized as a reduction of the net pension liability for the year ended June 30, 2016.

Actuarial Assumptions

- Actuarial: Entry Age Normal
- Amortization: Method-Level Percentage of Payroll, Closed
- Remaining Amortization Period: 24 years for State System, 25 years for Law Enforcement Officers' Pension System (LEOPS) Muni, and 32 years for Correctional Officers' Retirement System (CORS) Muni as of June 30, 2014. For Employees' Combined System (ECS) Muni, 6 years remaining as of June 30, 2014 for prior Unfunded Actuarial Accrued Liability (UAAL) existing on June 30, 2000; 25 years from each subsequent valuation date for each year's additional UAAL.
- Asset Value Method: 5 Year smoothed market; 20% collar
- Inflation: 2.90% general, 3.40% wage
- Salary Increase: 3.40% to 11.90% including inflation
- Discount Rate: 7.65%
- Investment Rate of Return: 7.65%

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

- Retirement Age: Experienced-based table of rates that is specific to the type of eligibility condition. Last updated for the 2012 valuation pursuant to an experienced study of the period 2006-2010.
- Mortality: RP-2000 Combined Healthy Mortality Table projected to the year 2025

Rate of Return (investments)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term-expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the Board after considering input from the System's investment consultant(s) and actuary(s). For each major class that is included in the systems target asset allocation, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of return
Public Equity	35%	4.7%
Fixed Income	10%	2.0%
Credit opportunity	10%	3.0%
Real Return	14%	2.8%
Absolute Return	10%	5.0%
Private Equity	10%	6.3%
Real Estate	10%	4.5%
Cash	1%	1.4%
Total	100%	

Discount Rate

A single discount rate of 7.65% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.65%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Contributions

Contributions-employer	\$ 1,733,653
Contributions-members	<u>727,726</u>
Total	\$ 2,461,379

Sensitivity of the Net Pension Liability

The net pension liability sensitivity to changes in the single discount rate is as follows: 1% decrease to 6.65% would be \$248,240; and a 1% increase to 8.65% would be \$108,606.

NOTE 8 – OTHER POSTEMPLOYMENT BENEFITS

State Employee and Retiree Health and Welfare Benefits Program of Maryland

Plan Description

Members of the State Retirement, Pension, and Law Enforcement Officers' Systems and their dependents are provided postemployment health care benefits through the State Employee and Retiree Health and Welfare Benefits Program (Plan). The Plan is a cost-sharing, defined-benefit healthcare plan established by the State Personnel and Pensions Article, Sections 2-501 through 2-516 of the Annotated Code of Maryland. The Plan is self-insured to provide medical, hospitalization, prescription drug and dental insurance benefits to eligible State employees, retirees, and their dependents. A separate valuation is not performed for the MDTA. The MDTA's only obligation to the Plan is its required annual contribution as determined by the State of Maryland.

Effective July 1, 2004, the State established the Postretirement Health Benefits Trust Fund (OPEB Trust) to receive appropriated funds and contributions to assist the Plan in financing the State's postretirement health insurance subsidy. The OPEB Trust is established in accordance with the State Personnel and Pensions Article, Section 34-101 of the Annotated Code of Maryland and is administered by the Maryland State Retirement and Pension System. The Plan is included in the State's CAFR which can be obtained from the Comptroller of Maryland, LLG Treasury Building located in Annapolis, Maryland.

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

MDTA employees are members of the Plan. Eligibility for the Plan is determined by various factors, including date of hire. Generally, employees hired before July 1, 2011, may enroll and participate in the Plan if the employee left State service with at least 16 years of creditable service; retired directly from State service with at least 5 years of creditable service; left State service with at least 10 years of creditable service and within 5 years of normal retirement age; or retired directly from State service with a disability retirement. Employees hired after July 1, 2011, may enroll and participate in the Plan if the employee left State service with at least 25 years of creditable service; retired directly from State service with at least 10 years of creditable service; left State service with at least 10 years of creditable service and within 5 years of normal retirement age; or retired directly from State service with a disability retirement.

Funding Policy

Funds deposited into the OPEB Trust may consist of any funds appropriated to the OPEB Trust, whether directly or through the budgets of any State agency. The State is required by law to include money in the State budget to pay the State's share of the costs of the Plan.

Based on current practice, the State subsidizes approximately 50% to 85% of covered medical, dental, prescription, and hospitalization costs, depending on the type of insurance plan. The State assesses a surcharge for postemployment health care benefits, which is based on health care insurance charges for current employees. Costs for postretirement benefits are for State of Maryland retirees. The State does not distinguish employees by employer/State agency. Instead, the State allocates the postemployment health care costs to all participating employers.

For the years ended June 30, 2015, 2014, and 2013, the State did not allocate postemployment health care costs to participating employers and as a result did not require a contribution to be made by the MDTA.

NOTE 9 – RISK MANAGEMENT AND LITIGATION

Accrued Workers' Compensation Costs

The MDTA has recorded its portion of the State of Maryland's workers' compensation costs. The workers' compensation costs accrual represents the liability for anticipated claims and claims expense for the MDTA's employees, less the cumulative excess of premiums paid to the Injured Workers' Insurance Fund and net investment income applicable to the MDTA's coverage. Changes in the balance for the MDTA's worker compensation liability for the year ended June 30, 2015, are as follows:

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

Worker's Compensation
(In Thousands)

	For The Years Ended	
	<u>2015</u>	<u>2014</u>
Unpaid Claims	\$ 12,539	\$ 11,793
Incurred Claims and changes in estimates	2,745	3,324
Claim payments	<u>(2,829)</u>	<u>(2,578)</u>
Total unpaid claims	<u>\$ 12,455</u>	<u>\$ 12,539</u>

Self-Insurance and Third-Party Insurance

The MDTA is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The MDTA participates in the State of Maryland's self-insurance program (the Program), which covers general liability, property and casualty, workers' compensation, environmental liabilities and provides certain employee health benefits.

The Program allocates its cost of providing claims servicing and claims payments by charging a premium to the MDTA based on a percentage of estimated current payroll or based on average loss experience. In addition, the MDTA maintains certain third party policies for structural property and liability damages. Settlements did not exceed insurance coverage for damages over the past three fiscal years. The MDTA's premium payments for the year ended June 30, 2015 were approximately \$8,344.

Litigation

The MDTA is a defendant in a number of claims and lawsuits resulting from capital and maintenance contracts and other operational matters. The MDTA plans to vigorously defend these claims. In the opinion of the MDTA's management, the settlement of these claims will not have a material adverse effect on the accompanying financial statements.

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

NOTE 10 – RELATIONSHIPS WITH OTHER GOVERNMENTAL AGENCIES

The MDTA has entered into contractual agreements and performs services for other governmental agencies. The MDTA receives rent, interest income, and fees for services, which are included in intergovernmental revenue in the accompanying financial statements. In addition, other governmental agencies provide services to the MDTA, which are included in the appropriate expense category.

The MDTA's intergovernmental revenue for the year ended June 30, 2015 is as follows:

Intergovernmental Revenue Summary

Federal Highway Administration	\$	87,453
Maryland Aviation Administration (MAA)		18,432
Internal Revenue Service		14,001
Maryland Port Administration (MPA)		6,541
State Highway Administration and Other		1,738
Maryland Transit Administration		414
	\$	<u>128,579</u>

Federal Highway Administration

The Federal Highway Administration (FHWA) provided funding for the Intercounty Connector Project (ICC). This funding is in the form of Grant Anticipation Revenue Vehicles (GARVEE) bond proceeds. For the year ended June 30, 2015, intergovernmental funding of \$87,453 was received from the FHWA.

Maryland Aviation Administration

The Maryland Transportation Authority Police provide the primary security at the Maryland Aviation Administration's (MAA) Baltimore/Washington International Thurgood Marshall Airport (BWI Marshall Airport). Protection is provided in the main terminal and all surrounding roadways, parking garages and lots, as well as the rental car and cargo facilities. The MDTA Police also furnish communications services and K-9 teams trained in explosives detection. For the year ended June 30, 2015, \$18,432 was received from the MAA.

Internal Revenue Service

For the year ended June 30, 2015, the MDTA received a subsidy of \$14,001 from the Internal Revenue Service for interest payments due on the Series 2009B and 2010B Build America Bonds (BABs). The 35% BABs interest payment subsidy was subject to a 7.3% reduction caused by sequestration that was effective during the 2015 federal fiscal year.

Maryland Transportation Authority
Notes to the Financial Statements
June 30, 2015
(In Thousands)

Maryland Port Administration

The MDTA Police provide the primary security at the Maryland Port Administration's (MPA) facilities at the Port of Baltimore. Among the areas protected are the Seagirt and Dundalk Marine Terminals, landside and waterside, the Cruise Maryland Passenger Terminal and the MPA's World Trade Center headquarters building in downtown Baltimore. For the year ended June 30, 2015, intergovernmental revenue of \$6,541 was received from the MPA.

DIRECT FINANCING LEASE RECEIVABLES

The MDTA has entered into capital lease agreements with other governmental agencies whereby the MDTA loaned or issued conduit debt to finance certain other governmental agencies' projects.

The MDTA's direct financing lease receivables and notes receivable outstanding as of June 30, 2015, consisted of the following:

	<u>Direct Financing Lease Receivables</u>	<u>Notes Receivable</u>
Maryland Port Administration	\$ -	\$ 7,147
Maryland Aviation Administration	393,383	-
Washington Metropolitan Area Transit Authority	24,922	-
Maryland Department of General Services	17,842	-
Total	<u>436,147</u>	<u>7,147</u>
Current portion	26,170	1,674
Noncurrent portion	409,977	5,473
Total	<u>\$ 436,147</u>	<u>\$ 7,147</u>

The MDTA holds funds to be used for future improvement projects in connection with certain financing for the MAA. The respective funds are included in intergovernmental payable in the accompanying statements.

Maryland Port Administration

The MDTA and MPA entered into a capital lease agreement, on April 21, 1998, whereby the MDTA finances an amount not to exceed \$20,000 and MPA designed, engineered, constructed and currently operates the Masonville Phase I Auto Terminal. Payments are made to the MDTA in twenty equal installments, including interest at a rate of 5.5%, which began on June 30 in the year following the completion of construction. Principal due on this lease during the year ended June 30, 2015, is approximately \$1,214. The present value of the capital lease as of June 30, 2015, is as follows:

Maryland Aviation Administration

The MDTA has direct financing leases with MAA. The MDTA borrowed funds to finance the development and construction of certain airport facilities projects at BWI Marshall Airport. The MDTA leases these airport facilities project assets to MAA under capital leases expiring on the date at which the MDTA has recovered all of its costs related to the airport facilities projects. Per the related facility lease and financing agreements, amounts due the MDTA under these capital leases are identical to the debt payment terms of the Variable Rate Passenger Facility Charge Revenue Bonds (Qualified Airport Bonds - AMT), Series 2012C; Passenger Facility Charge Revenue Bonds (Qualified Airport Bonds - AMT), Series 2012A, Series 2012B and Series 2014; BWI Airport Consolidated Rental Car Facility Bonds, Series 2002; and BWI Airport Parking Revenue Refunding Bonds, Series 2012A and Series 2012B, detailed in Note 5. MAA funds the leases through payment to the MDTA of revenues received from the facilities financed under these lease agreements.

I-95 Express Toll Lanes opened December 2014

The I-95 ETL is a variably priced facility, where tolls are higher during peak travel times. The variable tolling is to manage congestion.

	Class 2 & 8 Vehicles	Class 3 Vehicles	Class 4 Vehicles	Class 5 Vehicles	Class 6 Vehicles
Peak	\$1.75	\$5.25	\$7.91	\$10.50	\$13.16
Off Peak	\$1.40	\$4.20	\$6.30	\$8.40	\$10.50
Over Night	\$0.70	\$2.10	\$3.15	\$4.20	\$5.25

Total cost to the customer is based on miles traveled.

Note: Numbers may not sum to total due to rounding.

The ICC is a variably priced facility, where tolls are higher during peak travel times.
 The variable tolling is to manage congestion.

	Class 2 & 8 Vehicles	Class 3 Vehicles	Class 4 Vehicles	Class 5 Vehicles	Class 6 Vehicles
Peak	\$ 0.50 - \$4.40	\$ 1.50 - \$13.15	\$ 2.25 - \$19.75	\$ 3.00 - \$26.30	\$ 3.75 - \$32.90
Off Peak	\$ 0.40 - \$3.55	\$ 1.20 - \$10.55	\$ 1.80 - \$15.80	\$ 2.40 - \$21.05	\$ 3.00 - \$26.30
Over Night	\$ 0.40 - \$1.80	\$ 0.60 - \$5.30	\$ 0.90 - \$7.90	\$ 1.20 - \$10.55	\$ 1.50 - \$13.15

Total cost to the customer is based on miles traveled.
