

Join Us for an I-95 Express Toll Lanes (ETL) Northbound Extension MD 152 Park and Ride Virtual Public Update

Due to the COVID-19 state of emergency and the Maryland Transportation Authority's (MDTA) commitment to the protection of our customers and team members, we are practicing social distancing by holding a virtual public update for the MD 152 Park and Ride.

The MDTA will be providing an opportunity to learn more about the MD 152 Park and Ride as part of the I-95 Express Toll Lanes (ETL) Northbound Extension through a virtual public update using Webex.

Thursday, June 11 — 7:00 PM to 8:00 PM

Access via Microsoft Teams [here](#). For the audio-only version of the meeting, call 443-409-5228 and when prompted for the Conference ID, dial 961 768 356#.

I-95 Express Toll Lanes (ETL) Northbound Extension

This \$1.1 billion project will enhance the MDTA's efforts to provide a safe and reliable commute for its customers and advances the Traffic Relief Plan that Governor Larry Hogan announced in June 2018. In addition, the proposed improvements will increase quality of life for numerous communities with the addition of several new noise walls and will replace or rehabilitate multiple bridges that are more than 50 years old.

At the virtual public update you will:

- Learn how improvements along the I-95 corridor will result in the closure of the existing MD 152 Park and Ride lot
- Learn about new options for the MD 152 Park and Ride lot location
- Participate in a question & answer session with the project team. Submit your questions in advance no later than 3:00pm on Tuesday, June 9, 2020 to the project email at I95ETLNB@mdta.maryland.gov
- Find out how to submit your feedback for the MD 152 Park and Ride relocation

If you are unable to join us, please visit the project website at mdta.maryland.gov/I95ETLNB/home.html to view all virtual public update materials and submit feedback by June 25, 2020.

Individuals who require special accommodations under the Americans with Disabilities Act or who require translation services (free of charge) should contact the project team at: I95ETLNB@mdta.maryland.gov.
