

BIG TIME (AND LOUD) ROADWORK HAS BEGUN

Improving your ride on I-895

Here's what you need to know:

- Due to milling and paving on the northbound and southbound lanes of I-895 near the Baltimore Harbor Tunnel, loud construction noise may be heard starting this week until Mid-July (weather dependent).
- Work will take place both during daytime and nighttime hours.
- We are doing our best to limit disruptions to the community.
